believes technology will help end poverty in developing communities. She has traveled the world working with indigenous communities in fair-trade, sewn-product manufacturing and solar pv. Since 2004, she has devoted herself to the accessibility of solar panels. Her invention, the Vanopy, is already helping families in Senegal + Puerto Rico.

2011-Present CEO. Texas Indie Solar Indie-Solar.com

Off-grid and Mobile Solar PV Systems
 Design + Installation * Consulting
